

What Will Henderson Bay Look like Next Year?

The way we learn next year will change. We will be able to go out and explore our interests and how we feel about various things.

The new curriculum will let us know what everyday life will be like in our future. The grading system will be different and turned into competencies and then you won't be graded like the usual way.

Daily life can stress students out. Big Picture is leading a big change for schooling. The stress of not knowing will be absent. We will all welcome less stress in school.
